The fees relating to the distribution or sale of the Commercial Software should be paid quarterly and submitted to Network Associates Inc., Attn: Royalty Collection Department, 3965 Freedom Circle, Santa Clara, CA 95054; Network Associates reserves the right to audit You with respect to royalties from time to time at its discretion. If the net revenues resulting from the distribution of the Commercial Software exceed fifty-thousand dollars (\$50,000.) US per year, and provided that all of the terms and conditions set forth below are complied with, You must obtain permission for further distribution and use of the Commercial Software under a separate written OEM agreement with Network Associates. Call or write to the OEM Department at Network Associates at the address listed above.

1. **License Grant.** Network Associates grants You (the original end-user and any subsequent transferee of the Toolkit Software as permitted below) a non-exclusive license to put in use by a person or organization that agrees to be bound by the terms of this Agreement, one copy of the Toolkit Software, in the manner set forth below.
  - a. **Installation.** You may install one copy of the Toolkit Software on a single computer or workstation ("Developer Device") for software development purposes. An end user or developer who uses the Toolkit Software for development purposes shall be referred to as a "Developer Seat." You must acquire and dedicate a PGPsdk Software License for each separate Developer Seat who will have access to the Toolkit Software for development purposes. Notwithstanding the foregoing, if You obtained the Toolkit Software on a CD and the CD contains several copies of the Toolkit Software, each of which is compatible with a different operating system or platform architecture (such as Windows95/NT, Macintosh, one or more versions of Unix, or other architectures), then You may install the Toolkit Software on separate Developer Devices for use with one or more of those architectures, provided that those Developer Devices are part of one Developer Seat (i.e., used by a single developer). You may also make a reasonable number of copies of the Toolkit Software solely for backup or archival purposes. Further, if the Toolkit Software is permanently installed on the hard disk or other storage device of a Developer Device (other than a network server) and a single person uses that computer more than 80% of the time it is in use, then that person may also install and use the Toolkit Software on a portable or home computer for development purposes.
  - b. **Developmental Use.** This license authorizes a single Developer Seat to use the Toolkit Software on any Developer Device on which it was properly installed under subsection 1(a) above for the non-commercial purposes set forth in this Section 1. You may not modify the Toolkit Software, or any component thereof, and You may not make copies of or distribute the Toolkit Software, or any component thereof, for use on any computer or workstation other than the authorized Developer Device, except as specifically set forth in this Section 1 without a separate written agreement signed by an authorized officer of Network Associates, or its authorized designee.

- c. Definitions. The term "Developer's Computer Program" shall mean a computer program developed by or for You, published under Your name, or under the name of Your organization, into which the Toolkit Software, or any portion thereof, shall be incorporated or embedded to create Non-Commercial or Commercial Software applications of the Toolkit Software . The Non-Commercial or Commercial Software" shall mean a Developer's Computer Program into which any portion of the Toolkit Software has been incorporated or embedded, provided that the Non-Commercial or Commercial Software (a) is distributed and used for non-commercial purposes or limited commercial purposes and (b) shall represent a significant functional and value enhancement to the Toolkit Software such that the primary reason for an end user to license or use such Non-Commercial or Commercial Software is other than the encryption/decryption or signatures/authentication of data and other than the right to receive a license to use the Toolkit Software included in the Non-Commercial or Commercial Software. Without limiting the generality of the foregoing, the Non-Commercial or Commercial Software may not be a stand alone or add-on data security application or otherwise directly compete with Network Associates products or the Toolkit Software. For purposes hereof, the term "non-commercial" shall mean that the application (a) has been distributed or otherwise made available at no charge (direct or indirect) and (b) is not used for any commercial purpose, which includes, but is not limited to, any activity engaged for the purpose of generating revenues (directly or indirectly). For example, a commercial purpose includes the use of the application within a commercial business or facility or the use of the product to provide a service, or in support of service, for which You charge. Commercial purpose also includes use by any government agency or organization. Examples of non-commercial purposes include use at home for personal correspondence, use by students for academic activities, or use by human rights organizations.
- d. Non-Commercial/Limited Commercial Distribution License. Subject to all the terms and conditions of this Agreement, Network Associates hereby grants to You a limited, nonexclusive, nontransferable license (a) to incorporate the exact, unmodified copies of the Toolkit Software, or a portion thereof, into a Developer's Computer Program to create a Non-Commercial or Commercial Software application, and (b) to reproduce and distribute the Non-Commercial or Commercial Software to end users solely by electronic means (for example, posting on networks or Internet sites for others to download), subject to the following (i) that such distribution is solely for non-commercial purposes, or limited commercial purposes subject to the payment of fees as detailed in the introductory paragraphs above(see requirements of \$1 per copy royalty or fee of 6% of gross revenue of Commercial Software, whichever is greater), (ii) that You do not remove any proprietary rights notices that may be contained in the Toolkit Software, (iii) that You comply with all of the terms and conditions of this Agreement (including, but not limited to, the other conditions set forth in subsection 1(e) below), and (iv) that such distribution may occur anywhere in the world, except that Network Associates expressly forbids the export of the Toolkit Software, or any portion thereof, to any countries embargoed by the U.S. government (currently including, Cuba, Iran, Iraq, Libya, North Korea, Syria and Sudan).

You may also use the Toolkit Software, or any component thereof, to operate a service bureau, including any digital certificate services or any other data security service, provided that such use or service is solely for non-commercial purposes. If this Toolkit Software is labeled "Evaluation Copy," "Not For Resale," "NFR" or to any of those effects, this license only permits use for demonstration, test, or evaluation purposes.
